The excursions are designed for everyone and their ease does not exclude any of us!

Odle and **Pale di San Martino** will be part of what we see, providing us with an unforgettable glance.

On the top of this, another highlight will be visiting the area of **Paneveggio**, where will find an important museum «**The sounds of Nature**». Here, to the singing of birds from all over the world, we will study how musical instruments were made. You can also listen to special recordings with headphones.

We will continue on foot to see native animals such as deer, arriving at another wonderful mountain view: the **Pale di San Martino**. If we are lucky, we will see the effects of sunset, when the sun gives the mountains a magical red color like fire.
